**CHAIRMAN'S MESSAGE**

Dear Shareholders,

I am very pleased to share with you that Signet Industries Limited (SIL) has delivered yet another strong and profitable performance in fiscal year 2016. This is a very exciting time for our company. We are driving a relentless focus on our strategy, and investing strategically in creating new growth vectors for the future, while continuing to drive our core to full potential, ensuring execution excellence and building on our agile and high performance culture. We believe that this is what differentiates us and allows us to continue to innovate and delight our millions of consumers across the India with superior quality, top class products at affordable prices.

We have achieved remarkable growth this year, which makes me grateful. Certainly, we could not have achieved this without the spirit of dedication, hard-work and creation of each associate and member of the organization. As a result of this, the Company has maintained its upward trend by registering sales of Rs. 79357.19 lacs, which is about 20% higher as compared to previous fiscal. Also, the net profit grew over 48% as compared to previous fiscal.

In this fiscal, SIL launched a number of new and innovative products, which helped in the growth of company despite unfavourable conditions, especially poor rains registered in the previous fiscal. Further, company has not only expanded its distribution network within existing states of operation but have also started building network in newer states. This has helped company to improve its top-line and reduce dependency on fewer states. Most importantly, company has supplied products in multiple prestigious government projects in various states. These key developments helped company to grow both top-line and bottom-line by bettering the percentage utilization of manufacturing equipment.

I would like to take this opportunity to acknowledge the many contributions; sincere dedication and total commitment of our entire team of professionals. My deep appreciation to all our vendors and other business associates for their continuous support. I express my sincere gratitude to all our stakeholders for their interest, trust and encouragement through the years. **Annexure I****MANAGEMENT DISCUSSION AND ANALYSIS REPORT****Overview**

As the third largest consumer of polymers, India ranks only after China and USA. Evaluation of the polymer industry trends reveals strong growth prospects citing the increased usage of plastics across sectors. The sector is projected to grow at the rate of 6.2% in 2015 and 6.8 in 2016 citing the growing demand from various industries. Furthermore, with the key market players integrating more back-end exploration and refining businesses, alongside streamlining their sourcing operations, opportunities are expected to increase in the coming years.

With this change of guard in government, industry will also revive which will also consume lots of pipes in coming years which is mainly because of demand in agriculture pipes, plumbing pipes and industrial pipes.

Four major factors are contributing to the favorable outlook: shale oil and gas developments, regional market expansion, innovation and increased awareness. PVC pipe demand is projected to accelerate through 2020, reaching 33.2 million metric tons. Through to 2020, HDPE demand is projected to rise 7.8% a year to 18.1 million metric tons.

The Indian Pipe Industry has experienced rapid growth in the last several years. The major reasons for the growth of this industry is increasing demand for pipes in the irrigation sector, oil and gas sector and also the real estate industry. The demand for plastic pipes such as PVC and CPVC is also increasing as these pipes are better in quality and durability. Infrastructure development, urbanization and the subsequent development of residential and industrial construction are facilitating the growth of the pipe Industry in India.

Opportunities

Evaluation of the polymer industry trends reveals strong growth prospects citing the increased usage of plastics across sectors. Furthermore, with the key market players integrating more back-end exploration and refining businesses, alongside streamlining their sourcing operations, opportunities are expected to increase in the coming years.

The next few years are likely to witness the launch of new plastic products into the market. As plastics perform efficiently in utility water systems, cable protection, under-floor heating, and other similar applications, escalating opportunities in these areas are projected to bode well for plastic pipes in the future.

In the past few years, government of India has initiated many new projects and investments in the irrigation sector. The focus of the government is on rural water management, which will be fulfilled only when there will be proper infrastructure for the transportation of water to the end-user. This factor will remain as one of the major drivers for the growth of PVC pipe industry in the country along with the expansion of housing sector and increasing demand for oil and gas transportation.

The growing Indian economy creates unprecedented opportunities for SIL to significantly invest and expand in each of its core business.

Threats

There is a need to keep vigil on the quality of products being offered in market place as many players have joined the wagon. Constant increase in prices of Raw Material is a severe issue for the PVC Pipes since it has a direct effect over the prices of finished goods product demand.

There are many other threats which includes increasing crude oil prices, import threat from Middle East, Neighboring countries specializing in processing industries could lead to imports and replacement threat from substitutes.

Internal Control Systems

At SIL, have well defined and adequate internal controls and procedures, commensurate with its size and nature of its operations. This is further strengthened by the Internal Audit done concurrently.

An Audit Committee, headed by a Non-Executive Independent Director, reviewed audit observations periodically. The Audit Committee of Directors, in its periodical meetings, reviews the adequacy of internal control systems and procedures and suggests areas of improvements.

**Human Resources**

During the year 2015-16, the company has maintained cordial and harmonious relation with the employees throughout the year.

Total employee strength as on 31/03/2016 was 443.

**Annexure B To the Independent Auditor's Report of even date on the Standalone Financial Statements of Signet Industries Limited****Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")**

We have audited the internal financial controls over financial reporting of Signet Industries Limited ("the Company") as of March 31, 2016 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.
